

*‘TO A FUTURE  
THAT BELONGS  
TO US’*

# The 10 key areas

- Marine
- Biodiversity
- Energy
- Litter
- Waste
- Water
- School Grounds
- Healthy Living
- Transport
- Global  
Citizenship

Starting from the very Early Years, children are encouraged to choose healthy snacks. Treats are good, but not everyday. Making our own shares the pleasure between eating and making.

Making a conscious decision to reuse materials for our craft projects limits landfill.

Our Christmas decorations made from pine cones that we found in the school garden.

How does  
your garden  
grow?

## The water cycle.

We have:

- Investigated water
- Experimented with water colour
- Created a water cycle mobile
- Played with ice
- Measured using litres
- Made 'save water' posters
- Fixed the water butt
- Talked about water safety

Gardeners of the future!

At 3mx1.5m, Year 5&6's art work reused materials from all over school.

A grand day out for the whole school at Llangollen International Eisteddfod.

Whole School  
Workshops  
October 2018

# We remember them

How many poppies can you see?

Each red poppy  
represents a thousand Welsh  
soldiers who died in the  
Great War.

We wear  
a poppy  
to remember...
