

WE WERE LEARNING ABOUT ONLINE FRIENDSHIP IN ECADETS

Online friendship is when you and a friend play together on a game or a device but you've never seen each other in person. You must be careful with online friends because you don't know who they are and what they may do to you.

**WE ARE GOING TO READ YOU SOME
SENTENCES AND YOU NEED TO
DECIDED WHETHER THEY ARE A
'REAL FRIEND' OR AN 'ONLINE
FRIEND'**

WHERE DO THESE SENTENCES BELONG?

- They have told you where they live and their name and age
- You've been to their house before and met them with you're parents permission.
- Meet me at the park by the train station at 12.00am

We have made a video to show you how dangerous meeting up with an online friend could be....

The person Joey thought he was going to meet turned out not to be who he said he was.

Make sure you only ever meet up with someone who you know and have met in person before.

Thank you
