Literacy –

There is a new set of spellings up on Purple Mash for you to have a go at. This week's words (for most children) come from the Statutory Words List, so there isn't a letter pattern to follow as there has been in previous weeks. The children who do phonics with me have "air" and "are" words to have a go at.

I understand that Mr Griffiths has set up a Class Blog for his class so they can discuss what they have been doing, ask questions about things they have been set and feel more like a class than they have been. I have tried this myself, though I am not as

much of a Purple Mash whizz as Mr Griffiths, so you will have to bear with me depending on how many of the settings I manage to get wrong. :) If you log onto Purple Mash, click on "Sharing" at the top then click "Shared Blogs", you should be able to see our class blog there.

As this week's writing task, could you log on to Purple Mash and add

a post to the blog telling me about what you have been getting up to while you have not been in school. It only needs to be a few sentences but remember to check your spellings and use capital letters and full stops.

Reminder: Children should be encouraged to read for at least 10 minutes a day. It doesn't matter what they are reading. It could be their reading/library book from school, a magazine, a book you have at home, or something online for them to look at.

PE—

I was pleased to receive an exercise plan from one of the children in our class on Purple Mash this week. If anybody else would like to send one, they can send it on PM or via email. This week's challenge is to find a tennis ball or something of a similar size and throw it with one hand and catch with the other. See how many times you can do this without dropping the ball, how many times you can do it in 1 minute and if you can clap while the ball is in the air, and still manage to catch it (very very difficult).

Maths –

<p>There is a brilliant video explaining tally charts here. Watch it to understand what you are going to be working with this week.</p> <p>https://www.youtube.com/watch?v=6L2ch1esFGA</p>	<p>There is a 2do on Purple Mash about Tally charts. Remember that each line means 1 vote/person and we group them into 5s so the 5th line is diagonal:</p> <p>1 2 3 4 5</p> 	<p>Create a Tally chart of your own and ask people who live with you or you are in regular contact with a question. It could be their favourite animal, colour or their favourite chocolate bar. Give them some options to choose from. You can do this on Purple Mash (see 2dos) or on paper.</p>	<p>Using the information you gathered, write some questions you could ask someone else about your data. You could ask which was the most/least popular, how many people voted for something or how many people were asked.</p>

Science –

Task 1 – Watch the video I have posted on Youtube here:

<https://youtu.be/2YRGrdx6gPU>

As I upload this document, it is still processing the video, but it should be up soon.

Task 2 – Last week I asked you to have a look for Roots, stems, leaves and flowers. This week, I'd like you to do a little research into these parts of a plant. Questions you might want to think about include:

What do they do? Do all plants have them? Why do they look like that?

I have set this us as a 2do on Purple Mash and I look forward to seeing what you find out.

Task 3 – I got a few fantastic plans for an experiment on Purple Mash last week. I have extended the time limit on this task because now people can see my experiment, it might give them a few more ideas of things they could find out. If you haven't done it, please have a go this week. If you have, you don't need to do it again.

Task 4 – If you want to hear more about what plants need to grow, watch these videos and try the quiz underneath:

<https://www.bbc.co.uk/bitesize/topics/zy66fg8/articles/zcmtk2p>

<https://www.bbc.co.uk/bitesize/topics/zy66fg8/articles/z98jpbk>

If you need to need to contact me, you can do this through Purple Mash or you can email me at huytonp8@hwbcymru.net. Please be mindful I am in school with key workers' children a couple of days a week, but I will try and answer emails by the following working day. Stay safe and look after each other.

A Prayer from Bishop Gregory

Dear Father, who created us, and redeemed us,
and who has promised us your love,
be with us in a time of danger and of worry.
May those who suffer, or who are ill,
know the blessing of your grace,
while we who are well be inspired by your Spirit
To be wise and to be servants, working for the healing
and wholeness of all, each in our own way.
Keep us calm and cautious, strong and open to service,
So that we take care of those around us,
and also ourselves.
We ask this in the name of Jesus.
Amen.
