1. Our Distinctive Character

School Motto:

‘Tomorrow’s success begins today.’

The Diocesan Vision:

That every child is cherished and encouraged, supported by God’s love and Christian values.

As a Church School:

We aim to serve the community by providing education of the highest quality within the context of a Christian belief and practice. We encourage an understanding of the meaning and significance of faith and promote Christian values through the experience we offer all our pupils.

Headteacher’s Vision:

We aim to care for every child in every way, and to create within our Christian schools, a safe, secure and fun learning environment where every child feels happy and enjoys their learning. We strive to create schools where teaching and learning are challenged and raised, enabling all to succeed to the best of their ability; to make everyone feel valued as a member and know that they have an important contribution to make.

Our Aims:

- To provide a safe, stimulating, healthy and happy environment in which all reach their full potential.
- To establish an ethos of care and respect for everyone; conscious and considerate of the need and values of others.
- To nurture and value each individual’s achievements, ensuring that everyone assumes responsibility for their own actions and is prepared to make a positive contribution in life.
- To promote belief in own ability, creating a ‘can do’ culture where risk taking is encouraged and where there is no fear of failure.
- To inspire lifelong independent learners; confident and assured to explore the wider world.
- To aspire to the highest possible standards of learning and teaching within an exciting, broad and creative curriculum.
- To promote high expectations and enjoy high levels of achievement in all aspects of the curriculum and life of the school.
- To fully develop effective and meaningful links with the home and make a positive contribution to the wider community.

2 Characteristics of our school

Context of the School Paste in

Eyton Church in Wales Voluntary Controlled Primary School is in the village of Eyton, near Wrexham, which is the local authority. Currently, there are 62 pupils on roll, aged from three to eleven, including four nursery children who attend part-time. There are three mixed-age classes at the school.

About nine per cent of pupils are eligible for free school meals. This is well below the national average (19%). Most pupils are of white British ethnicity. No pupils speak Welsh at home.

The school identifies that around 11% of pupils have additional learning needs. This is well below the national average (21%).

The headteacher took up her post in January 2017.

Most pupils make good progress in line with their abilities, although boys tend to perform less well than girls in key stage 2.

Nearly all pupils have very positive attitudes to their work and develop well as resilient learners.

They behave very well in classes and around the school. Most pupils

develop their numeracy and information and communication

technology (ICT) skills well across the

curriculum. Many pupils write effectively for a broad range of purposes.

Most teaching is good and staff provide a broad, rich and engaging curriculum. The quality of care, support and guidance for pupils is good.

Data from Equality Questionnaires

1.3 Mainstreaming equality into policy and practice

As well as the specific actions set out beneath in this plan, the school operates equality of opportunity in its day to day practice in the following ways.

We aim to provide all our pupils with the opportunity to succeed, and to reach the highest level of personal achievement. To do this, we will:

- use contextual data to improve the ways in which we provide support to individuals and groups of pupils;
- monitor achievement data according to the various protected characteristics and take action to address any gaps;
- take account of the achievement of all pupils when planning for future learning and setting challenging targets;
- ensure equality of access for all pupils and prepare them for life in a diverse society;
- use materials that reflect the diversity of the schools, population and local communities in terms of the various protected characteristics, without stereotyping;
- promote attitudes and values that will challenge racist and other discriminatory behaviour or prejudice;
- provide opportunities for pupils to appreciate their own culture and celebrate the diversity of other cultures;
- seek to involve all parents/carers in supporting their child's education;
- encourage classroom and staff and governor discussion of equality issues which reflect on social stereotypes, expectations and the impact on learning;
- include teaching and classroom-based approaches appropriate for the whole school population, which are inclusive and reflective of our pupils.

1.4 Setting our Equality Objectives

We recognise our duty and responsibility to establish equality for all learners, staff, other members of the school community and service users regardless of their race, gender, disability, gender reassignment, sexual orientation, pregnancy & maternity, religion or belief, marriage and civil partnership as defined within the Equality Act 2010.

The purpose of our **Strategic Equality Plan (SEP)** is to fulfil the duties to promote equality for people with 'protected characteristics', and embed fairness and equality at the heart of our school communities and in all aspects of our school plans and policies.

In setting the equality objectives for Eyton Church in Wales Primary School, we will take due regard to the Equality Act general duty:

1. Eliminate discrimination, harassment, victimisation and any other conduct that is prohibited under the Act;
2. Advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it; this means;
 - a. removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic
 - b. taking steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it
 - c. encouraging persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low
3. Foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Our SEP and Equality Objectives are set in the light of:

- The regional equality objectives identified in **Appendix 1**;
- views expressed by stakeholders that have been involved in the development of the scheme;
- issues arising as a result of our analysis of our pupil data, e.g. attainment data of boys v. girls, FSM, Special Needs;

The delivery of our SEP will contribute to all of our actions and commitments to:

- raise standards;
- narrow the attainment gap in outcomes for children and young people;
- improve outcomes as described within the Children and Young People Plan (CYPP);
- promote community cohesion

Our School Equality Objectives are set out in **Section 5 and Appendix 3**.

2. Responsibilities

2.1 Governing Body

The governing body has set out its commitment to equality and diversity in this plan and it will continue to do all it can to ensure that the school is fully inclusive to pupils, and responsive to their needs based on the various protected characteristics. The governing body:

- seeks to ensure that people are not discriminated against when applying for jobs within our federation;
- takes all reasonable steps to ensure that the school environments give access to people with disabilities, and also strives to make communications as inclusive as possible for parents, carers and pupils;
- ensures that no child is discriminated against whilst in our schools

In order to meet its reporting responsibility, the governing body will report on the progress of the SEP annually, as part of its Annual Report to parents.

2.2 Headteacher

The Headteacher promotes equality and eliminates discrimination by:

- implementing the school's SEP, supported by the governing body in doing so;
- ensuring that all staff are aware of their responsibilities under the Act and are fully informed of our school's SEP and equality objectives,
- ensuring that all appointments panels give due regard to this plan, so that no one is discriminated against when it comes to employment or training opportunities;
- promoting the principle of equal opportunity when developing the curriculum, and promoting respect for other people and equal opportunities to participate in all aspects of school life;

- treating all incidents of unfair treatment and any incidents of bullying or discrimination, including racist incidents, according to the Authority's and federation's policies

2.3 Staff – teaching and non-teaching

The school regards equality for all as a responsibility for all. All members of staff contribute to ensuring that our schools are fair, just and cohesive communities by:

- ensuring that all pupils are treated fairly, equally and with respect;
- maintaining awareness of the school's SEP;
- striving to provide material that gives positive images based on the protected characteristics and challenges stereotypical images;
- challenging any incidents of prejudice, racism or homophobia, and record any serious incidents as prescribed in the LA and federation's policies, e.g. reporting of racial incidents;
- supporting the work of ancillary or support staff and encouraging them to intervene in a positive way against any discriminatory incidents

3. Information gathering and Engagement

3.1 Purpose and process

The collection of information is crucial to supporting us in deciding what actions to take to improve equality and eliminate discrimination within the school communities. The information also subsequently helps us to review our performance, so it needs to be detailed enough to enable us to measure how we are delivering on equality duties. The information also helps us to do accurate impact assessments and identify which of the school's aims have been achieved and what we need to do better.

Engagement is based on the information gained about representation of different groups. We aim to do this as fully as possible while recognising issues of sensitivity in relation to the different protected characteristics. We take particular steps to ensure disabled children and young people, parents and carers are involved as is their entitlement. The reason that this progress is important is to understand the full range of needs of the school community.

3.2 Types of information gathered

The wide range of information gathered to support our planning and action to promote equality and eliminate discrimination includes the following:

- an analysis of the responses received from pupils, parents/carers, staff and governors following the distribution of a questionnaire to determine equality issues. The questions included in the questionnaire do not highlight specific protected characteristics, but seek to obtain stakeholders' views across the board;

- identification of children and young people, parents, carers, staff and other users of the schools representing the different protected characteristics, if possible and appropriate. This helps us develop and monitor the scheme. Comprehensive and sensitive efforts are made to collect accurate information and meet data protection requirements, in addition to our duty to secure accurate information relating to ethnicity and first language;
- pupil attainment and progress data relating to different groups;
- children and young people's views actively sought and incorporated in a way that values their contribution;
- information about how different groups access the whole curriculum and how they make choices between subject options;
- sports and activities choices of all groups;
- uptake of enrichment activities by group;
- exclusions data analysed by group;
- records of bullying and harassment on the grounds of any equality issue;
- data on the recruitment, development and retention of employees;
- outcomes of activities promoting community engagement and community cohesion;
- outcomes of actions taken to secure the involvement of parents and others who have been identified as difficult to engage;

3.3 Engagement

The school involves stakeholders including children and young people, staff, parents/carers, governors and other users of the schools in relation to all equalities duties.

We take into account the preferred means of communication for those with whom we are consulting e.g. translated materials or interpretation facilities for disabled people or those for whom English is an additional language or are newly arrived in this country.

The views of stakeholders and other equalities related groups are genuinely taken into account when we set priorities.

We have involved stakeholders (i.e. pupils, staff, parents, governors and community representatives: members of the community who regularly volunteer in the school) in the preparation of Eyton Church in Wales Primary School SEP by seeking their views through questionnaires.

We have consulted as widely as we can both within our school communities and the wider local community of our schools.

4. Equality Impact Assessment

Impact assessment refers to the review of all current and proposed plans and policies in order to help us act to promote equality and to ensure no person is disadvantaged by school activities through discrimination on the basis of:

- Age
- Disability
- Gender reassignment
- Marriage or civil partnership
- Pregnancy and maternity

- Race
- Religion or (non-) belief
- Sex
- Sexual orientation

Impact assessments are an on-going process to ensure that the federation's plans and policies are developed in an increasingly inclusive and equitable way.

As part of this school's compliance with the specific duties of the Act, we will continue to undertake impact assessment of all new policies and plans prior to them being implemented. Similarly, we will impact assess our existing policies and plans whenever they are reviewed. As such, impact assessments are incorporated into the school's planned review and revision of every policy.

Where impact assessments have been done, they will influence changes to policy and the review of the SEP itself.

5. Objectives and Action Plans

Our chosen Equality Objectives are:

1. Raise awareness of equality and diversity issues amongst pupils, staff and governors
2. Review access to school facilities
3. Monitor achievement of groups of pupils
4. Monitor attendance
5. Impact assess policies and procedures

We have action plans covering all relevant protected characteristics (Appendix 3). These describe how we are taking action to fulfil both the general and specific duties.

The action plans show:

- objectives and specific actions;
- expected impact and indicators of achievement (success criteria);
- clear timescales;
- who has lead responsibility;
- resource implications;
- specified dates for impact assessment and review.

The school evaluates the effectiveness of the SEP annually, through the governing body and with Estyn when the school is inspected.

6. Publication and reporting

The school provides a copy of its SEP and its action plan to meet its equality objectives in a range of formats and actively makes it available to parents/carers and others, including those identified as difficult to engage. The school prospectus includes a reference to the SEP and the values underpinning it.

The school reports annually on the progress made on the action plans and the impact of the SEP itself on school ethos and practice within the school. This is undertaken as part of the Governors' Annual Report.

All data collected will be used solely for the purpose of analysing trends by protected characteristic in performance, take-up and satisfaction with services offered by the federation or local authority. Such information will be stored separately from personal information that identifies the individual. In order to protect the identities of individuals. When trend information is published no counts containing fewer than 5 individuals will be published.

7. Monitor and Review

As part of our responsibility to monitor the SEP, we commit to:

- revisiting and analysing the information and data used to identify priorities for the SEP and action plans. This incorporates use of the overview of outcomes;
- using the impact assessments to ensure that actions taken have a positive impact across all protected characteristics, that the promotion of equality is at the heart of federation planning and that discrimination is being eliminated effectively.

The review of the SEP informs its revision, the setting of new priorities and action plans. This process continues to:

- involve the participation of a full range of stakeholders;
- be evidence based - using information and data that the school has gathered and analysed;
- use the evidence to do accurate impact assessments which inform priorities.

We will undertake a review of our SEP by January 2022.

Appendices

- App. 1** Regional Equality Objectives
- App. 2** Local Equality Objectives
- App. 3** School Equality Objectives and Action Plan

Regional Equality Objectives

South West and Mid Wales Authorities Consortium (swamwac/erw)

1. Reduce Gaps in attainment between Boys and Girls and between other protected groups as identified in local data

National research indicates inequalities in the levels of attainment between genders, ethnicities and between disabled people and non-disabled people. Boys, black, Bangladeshi and Pakistani pupils and disabled children all perform poorly on average compared to other groups.

2. Implement new Welsh Government Bullying Guidance and reduce Identity based bullying in schools

The All Wales Survey of Bullying in schools (WG 2009) found a range of identity based bullying in schools across Wales. Examples include 22% of year 6 pupils had been 'bullied in a homophobic way'; 7% of year 7 pupils had been 'bullied in some way due to learning difficulties' and 3% of year 10 pupils had been 'bullied in some way due to race or ethnic origin'.

3. Reduce gaps in levels of attendance between different protected groups as identified in local data

Work is currently underway to improve data analysis which can identify differences in attendance trends between groups of pupils with different protected characteristics. Several reports have been commissioned nationally which examine attendance of Gypsy Traveller and Irish Traveller children. Each found that attendance was lower among these children.

4. Reduce the number of NEETs

Wales has a higher proportion of people who were not in education, employment or training (NEET) among the 16-24 year old group than England. Being NEET is a major disadvantage to young people.

5. Improve access to information and physical access to schools and other learning settings for pupils, parents and staff.

Head teachers and Governors need to be confident that all pupils can reasonably access services and are not unjustifiably disadvantaged by having any of the protected characteristics. Schools already have Disability Access Plans in place. However, schools and local authorities through the public sector equality duties need, to cater for the needs of all protected groups so the scope is wider than Disability Access Plans.

6. Raise awareness of equality and diversity issues among Pupils, Staff and Governors.

None statutory guidance on the Public Sector Equality Duties states that 'a listed body in Wales (including all Schools) must make appropriate arrangements to promote knowledge and understanding of the general and specific duties amongst its employees.' In the federation context we wish to extend this to include pupils and Governors.
