Covid Return to Normal Feedback

So far we have had 7 responses in total. Please take the opportunity to tell us what you think. One statement is shown below.

The [schools operational guidance](#) mentions wider Covid symptoms to be aware of:

- *Testing is also being made available in some areas for those experiencing a wider range of symptoms such as fatigue, myalgia (muscle ache or pain), a sore throat, a headache, a runny nose, nausea, vomiting or diarrhoea. Individuals who take a test because of these other wider symptoms are not required to isolate while they await their test result. This includes learners, who can continue to attend their school or setting while they await a test result. However, children and adults with diarrhoea and/or vomiting should not attend their school/setting until they are symptom-free for 48 hours, even if their test result is negative.*

Please be mindful of this updated guidance. It is always worth a call to NHS 111 to describe the symptoms and follow the medical advice given.

Diolch,
Mr Austin Bowers

St. Asaph Celebration A Journey of Faith

You are all invited by Heather Loveridge, Interim Director of Education, to attend an online celebration of the 400th Anniversary of the Translation of the Bible into Welsh and the links with our St. Asaph Diocese with a live service between St. Asaph and Westminster Abbey

Filmed from St Asaph Cathedral this service celebrates the inspiring work of the eight translators who worked together to ensure that the people of Wales could hear and read the Bible for themselves in their own language.

The service will enable you to join with the children of our Church schools to give thanks for the work of the translators and to look at how we can work together to inspire change.

A special service will be available on the diocesan website from 10am on Wednesday 12th May 2021.
